

Pasture Recovery after Fires Cudgewa Workshop

Agriculture Victoria invites producers to attend a Pasture Recovery after Fire Workshop.

This workshop is being held in response to the significant grazing area lost on farms in the recent North East fires.

Assessing the likelihood of pasture survival, the need for its specific management or pasture renovation are important recovery considerations.

An understanding of ruminant nutrition and feed budgeting are also essential when a farm loses significant grazing areas to fire, due to an increased reliance on supplementary feeding.

TOPICS TO BE COVERED

- Pasture species survival after fire
- Ruminant nutrition requirements and feed budgeting
- Pasture species and variety options for 2020:
 - annual, short term and cereals
 - perennial species.

PRESENTERS

Agriculture Victoria extension staff and industry pasture specialists.

LOCATION

Cudgewa Football and Netball Clubrooms,
Cudgewa Valley Road, Cudgewa

DATE AND TIME

Tuesday, 25 February
9.45 am to 2.00 pm, **morning tea and lunch provided.**

REGISTRATION

Registration is essential for catering purposes. Please register by Saturday 22 February through Eventbrite:

<https://pasturerecoveryworkshopnortheast.eventbrite.com.au>

If you are unable to register online or would like more information, please contact Ian Gamble, Agriculture Victoria Rutherglen on (02) 6030 4528 or ian.gamble@agriculture.vic.gov.au

This activity is supported by North East CMA, through funding from the Australian Government's National Landcare Program and Agriculture Victoria.

Please note: Agriculture Victoria will cancel this workshop if a Code Red fire day is declared for this area.
